**A BRIEF NOTE FROM THE EXECUTIVE DIRECTOR**

*Laurel Hellerstein, University of Massachusetts, Amherst*

**M**any AHECTA members and their affiliated campuses have provided strong support to AHECTA in our early years- I thank each and every one of you for the time and resources you have provided to make this organization grow. However, I want to take what may be my last opportunity to publicly acknowledge the assistance Housing Services at the University of Massachusetts has given AHECTA over the years. As many of you know, AHECTA started out four years ago on the University of Massachusetts Campus with the blessing of Vice Chancellor of Student Affairs, Tom Robinson. Over the years, my various supervisors have supported the organization primarily by allowing University Staff and resources to be used in the day-to-day administration of AHECTA. Countless staff hours have been devoted to the organization, from clerical support to desk-top publishing, underwritten solely by the University of Massachusetts. Housing's Finance Unit has been supportive of AHECTA by assisting in contracts, purchases and payments as well as record keeping. The University itself has proved to be an invaluable resource providing low cost services such as printing and duplicating as well as inexpensive office supplies. As the founding "mother" of AHECTA, I personally can only wish good things for the organization as we formally separate from the University. It is undeniable that without the good support of Housing Services at UMass, AHECTA would not have come as far as it has today!
